Why choose Travertine concrete products? Concrete paver manufacturers, for some years now, have tried to imitate the look of real stone but there is no comparison to the real thing. Concrete products are "manmade" and suffer from color pigment fading and deterioration over time.

## NEW! Mini Slabs

Our naturally beautiful and extremely durable Travertine natural stone Mini Slabs (36" x 48" x 2"). For both interior & exterior use. Great for countertops, floors, and walls. A piece of art that will last for generations
